Introduction Why study Perfume, Cosmetic and Toiletry industry? The answer is straightforward (Perfumes, Cosmetics, and Other Toilet Preparations, 2003). It is a significantly vital industry not necessarily in terms of its contribution to global GDP but by its striking influence on the colorful social lives of humans globally. Cosmetic Science Programs Around the World – Chemists Corner Here is a list summary of all the cosmetic science courses outlined below. We frequently get asked here on Chemists Corner about cosmetic science programs that teach you to become a cosmetic chemist in the cosmetic industry or even to just formulate your own products. So much so that we created our ... Chlorhexidine - Wikipedia Uses. Chlorhexidine is used in disinfectants (disinfection of the skin and hands), cosmetics (additive to creams, toothpaste, deodorants, and antiperspirants), and pharmaceutical products (preservative in eye drops, active substance in wound dressings and antiseptic mouthwashes). Using Extracts in Cosmetic Formulas – Chemists Corner On a Facebook page that I participate in someone there was a discussion about extracts in cosmetics and someone posed the question “Do a significant number of cosmetic chemists and formulators really hold that extracts are worthless in a product?” This quick answer is Yes. Most cosmetic ... Cosmetics Branding in China - AABRI LV14033 Cosmetics Branding in China Dr. Nikolai Ostapenko, University of the District of Columbia Abstract China offers the third-largest market in the world in terms of sales, after the United States Botulinum toxin - Wikipedia Botulinum toxin (BTX) is a neurotoxic protein produced by the bacterium *Clostridium botulinum* and related species. It prevents the release of the neurotransmitter acetylcholine from axon endings at the neuromuscular junction and thus causes flaccid paralysis. Infection with the bacterium causes the disease botulism. The toxin is also used commercially in medicine, cosmetics and research. HALLBRITE® BHB | Hallstar BPC HallBrite ® BHB (Butyloctyl Salicylate) is a novel, patented multifunctional ingredient and dispersing agent ideal for sun care, skin care, and color cosmetics.
