Full text of "NEW" - Internet Archive Search the history of over 357 billion web pages on the Internet. Australian Guidelines for the Prevention and Control of ... Synopsis There are around 200,000 healthcare-associated infections (HAIs) in Australian acute healthcare facilities each year. This makes HAIs the most common complication affecting patients in hospital. As well as causing unnecessary pain and suffering for patients and their families, these adverse events prolong hospital stays and are costly to the health system.
